The same kind old men with tight boots and dyed hair, and boyish collars, like Major Pendennes in "Pendennis"—the same young fellows, industrious about their moustaches, which they grow to tease—the tame Southerners, with black eyes, flowing locks, heavy canes, and stunning cigar—the same female hotel faces in the office of the same female hotel faces in the great hall—the same aristocratic shills.

Bears in Richland Co., Wis.

The county immediately north of the Wisconsin is infested with bears the present season. It is supposed that there has been a failure of their food at the far North which is their usual haunt, in consequence of the drouth and the fires that have swept through the woods and marshes thus driving them into the settlements in search of food.

MEDICAL.

Fever and Ague,

Fever and Ague,

from which mankind suffer over a large part of
the globe, is the consequence of a diseased sction
in the system, induced by the polsonous miasm of
vegetable decay. This exhalation is evolved by
the action of solar heat on wet soil, and rises with
the watery vapor from it. While the sun is below
the horison this vapor lingers near the earth's surface, and the virus is taken with it through the
lungs into the blood. There it acts as an irritating
presson on the internal viscera and exercting organs
of the body. The liver becomes torpid and fails to
secrete not only this virus, but also the bile from
the blood. Both the virus and the bile accumulate
in the circulation, and produce violent constitutional disorder. The spleen, the kidneys, and the
stomach sympathize with the liver, and become
disordered also. Finally, the instinct of our organism, as if in an attempt to expel the noxious
infusion, concentrates the whole blood of the body
in the internal exoretories to force then to cast it
out. The blood leaves the surface, and rushes to
the central organs with congestive violence. This
is the CHILL. But in this effort it fails. Then the
Fayon follows, in which the blood leaves the central organs and rushes to the surface, as if in
another effort to expel the irritating poison through
that other great excretory—the skin. In this
also it fails, and the system abandons the attempt
exhausted, and waits for the recovery of strength
to repeat the hopeless effort another day. These
are the fits or paroxysms of Fayen and Adur.
Such constitutional disorder will of course undermine the health if it is not removed.

We have labored to find, and have found, an
antidote,

antidote.

which neutralizes this malarious poison in the blood, and stimulates the liver to expel it from the body. As it should, so it does cure this afflicting disorder with perfect certainty. And it does more, or rather does what is of more service to those subject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in health although exposed to the disease.

Consequently it not only cures, but protects from, the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Chill Fever, Dumb, or Masked Ague, Periodical Headache, or Billous Headache, Billous Ferras, Neuralgia, Rheumatism, Gout, Bludness, Toothache, Earache, Catarrh, Asthma, Palpitations, Painful Affections of the Spleen, Hysteries, Colie, Paralvais, and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "Ague Cenn" removes the cause of these derangements, and cure the disease.

This it accomplishes by stimulating the extended to a cause of the spleen, and ures and derpondency, resuperate with great to the medical profession, delitors of the hig gest respectability, giving accounts, of the highest respectability, giving accounts of the highest respectability, giving accounts of the highest respectability, giving accounts, of the highest respectability, giving accounts of the highest respectability, giving accounts of the highest respectable, well-knew sure bare and Lanes of the highest respectability, giving accounts of the highest respectable, well-knew sure because of the highest respectable, well-knew sure because of which cut a strength; of which cut a strength; of which Ayer's Ague Cure,

the disease.

This it accomplishes by stimulating the excretories to expel the virus from the system; and these organs by degrees become habited to do this their office of their own accord. Hence arises what we term accimatation. Time may accomplish the same end, but often life is not long enough, or is sacrificed in the attempt, while this "Acura Curaz" does it at once, and with safety. We have great reason to believe this is a surer as well as safer remedy for the whole class of diseases which are caused by the misamatic infection, than any other which has been discovered; and it has still another important advantage to the public, which is, that it is cheap as well as good.

PREPARED BY DR. J. C. AYER & CO. LOWELL, MASS. PRICE ONE DOLLAR PER BOTTLE.

Ayer's Cherry Pectoral has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Blood Purifier and Blood Pills.

DR, ROBACK'S Scandinavian Remedies!!

WHEN DR. ROBACK, the celebrated W Swedish Physician, introduced his Blood Purifier and Blood Pills in the United States, he set forth in plain language their curative properties. This was years ago. The task of recommending them has since been taken out of his hands. Enlightened men whose character for sound judgment and adulassomly, gives their opinious weight Enlightened men whose character for sound judg-ment and philosophy, gives their opinious weight in the community, men who observe, reflect, and make "assurance doubly su c" before they decide— are everywhere approving and urging the use of these wonderful preparations. All who confide in the wistom and honesty of this class, or who chose to investigate for themselves are now of one mind on this important subject.

Dr. Roback invites the attention of the sick to the

HEALTH OF AMERICAN WOMEN.

From the N. V. Daiby News [Editorial.]

We desire to call attention to a letter from Dr.

Joshua F. Bridge, on "Health of American Wo-

Joshua F. Bridge, on 'Health of American Women," in another column. He treats the subject
in an able manner, and his skill and medical judg
ment may be relied upon.

From the Adamy Eccuring Express.

Marshall's Userine Catholicon has proved to be
fully as valuable as it is claimed to be in many
severe tests made by medical gentlemen and others.

Dr. Bridge is a regular physician of very fine attainments, a man of great judgment and discrimination, a judicious and highly successful practitioner, in all diseases, especially those of women
and children.

Marshall's Uterine Catholicon will certainly cure all the diseases for which it is recommended. In the worst cases I have ever net with, Marshall's Uterine Catholicon is a certain and safe MARSHALL'S UTERINE CATHOLICON

MARSHALL'S UTERINE CATHOLICON is unlessitutingly offered as a reliable remedy for all those complaints to which every woman is liable, and which gradually affect the mind as well as the body, so that to think, talk or work becomes alike a source of selfering, if not an impossibility. Among other complaints for which the Catholicon is a remedy is the Falling of the Womb, Whites, Suppressed, Irregular or Painful Menstruation, Bloating, Inflammations and Diseases of the Kidneys or Urinary Organs, Retration or Incontinence of Urine, Hestiturn, Costiveness, Nervousness, Faintings, Palpitations, Cramps, Disturbed Sleep, and all troubles organic or sympathetic, connected with the uterfule organic sympoms, or with spine, Ever or lung complaints, are invited to address Dr. BRIDGE, with rull confidence that they will find ratiof. Marshall's Uterine Catholicon is not a quack medicine, but its ingredients have been made known to the Medical College, and they are at the service of any respectable physician in the country.

The price of Marshall's Oterine Catholicon is One Dollar and a Half per Single Bottle.

West Benevous, Coshocton Co., May 14, 1857.
Mr. H. B. Kingsley, Sir.—I have been selling the medicines of the Graffenborg Company for the last ten years, and have invariably found them to give good as islaction; and the pills I have sold to a good many families as regularly as their tea and coffee, and with my trade they become a stagle article. Marshall's Uterine Catholicon is a medicine that has done a great amount of good in fection that has done a great amount of good in fection that has done a great amount of good in fection that has done a great amount of good in fection that has done a great amount of good in fection that has done a great amount of good in fection that has done as great amount of good in fe cine that has done a great amount of good in fe-male diseases. One lady I sold it to told me she had received more benefit from one bottle then she did from a long course of medical treatment by the most skilful physicians.

Yours truly,

James WILSON.

MRS. ROBINSON'S CERTIFICATE. MRS. ROBINSON'S CERTIFICATE.

Vernen, Trumbuil Co. May 1st, 1843.

This certifies that I have been in very poor health for years, and found little or no relief after employing a number of physicians. My disease was Prolapsis Uteri. I had been reduced by that and Flouror Albus until I had become electrated to a considerable extent. By the advice of Dr. G. W. Bushnell I procured and took six bottles of Marshall's Uterine Catholicon which enabled me to attend to my husband in his last sickness until the died, which was about a year since. I have taken three bottles since his death, which has made me able to labor and support my family of three children. The Catholicon has nearly restored my to health. It is the only thing that has mitigated my suffering for which I fell very grateful.
